

# TMT32 Logo Guide:

## Coloured logo version:

Please notice: Use coloured logo on white or black background only! In all other cases (different background/artwork) choose grey or white alternative as follows.

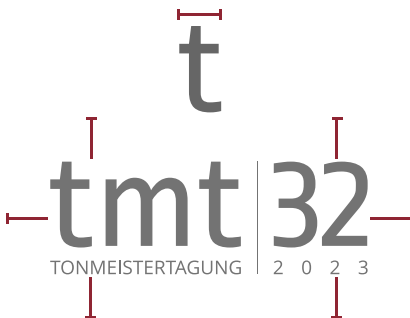

## White or grey logo version:

Background combination and monochromatic colour modulation without restriction.

## Logo padding:

For implementation of the TMT32 logo in your own advertisement artwork, a padding equaling at least 't' width is mandatory.

All alterations of aspect ratio regarding the provided graphics are strongly prohibited.

If you have any questions regarding implementing or using the provided logo graphics, please get in touch!
